Letter of Recommendation

To Whom It May Concern,

I am writing this letter to recommend Mr. Vansh Singh for the Mitacs Globalink Research Internship Programme.

He was extremely dedicated during the research study course in Computer Tomography and Image Reconstruction, which he conducted under my mentorship. His academic journey in our institution has consistently demonstrated outstanding qualities and his commitment to both coursework and research is truly commendable

Mr. Vansh Singh not only completed the course with an excellent grade but also consistently demonstrated a profound understanding of complex mathematical concepts or equations related to computer tomography and image reconstruction, particularly using the Filtered Back Projection (FBP) or Convolution back Projection (CBP) method. His dedication to academics and his strong analytical skills were truly impressive. This research was conducted as part of my research study course.

Mr. Vansh Singh possesses the qualities, dedication, and potential to excel further in his academic and research pursuits. His commitment, combined with his strong analytical abilities, unwavering enthusiasm, and a proven track record of excellence, undoubtedly make him an outstanding candidate for the Mitacs Globalink Research Internship Programme. I am confident that Mr. Vansh Singh will make significant contributions to any research project or academic endeavour he chooses to pursue.

I recommend Mr Vansh Singh without any reservations.

If you require any additional information, please do not hesitate to contact me.
